Hair on Face Neck and Arms What Causes It

Nature does not produce coarse, stubby, scrawny or superfluous hair. They are caused by the unwise use of so-called hair removers. The only way to gain control of such growth is to devitalize them. It is impossible to accomplish this result with pastes and rub-on preparations because they only remove hair from the surface of the skin. De Miracle, the original liquid depilatory, devitalizes hair by attacking it under the skin as well as on the skin. Imitations of De Miracle are as worthless as pastes and rub-on preparations, because they lack certain ingredients that De Miracle alone contains, which give it the power to rob hair of its vitality—its life-sustaining force. Insist on the genuine De Miracle and you will get the original liquid hair remover. Others are worthless imitations—refuse them. The truth about the treatment of superfluous hair made in plain sealed envelope on request. De Miracle Chemical Company, Dept. 1, Park Ave., 129th St., New York.—Advertisement.
